Principles for Creative Execution

Who Our Creators Are

They always have a job / family
Professionals, parents, responsible adults who use Bitpanda in addition to their daily lives.

They look like they have their life together
Clean, approachable, not over-the-top. Clothes that suggest they could be heading to work (button-up shirt, neat T-shirt).

Environments
Neat backgrounds, tidy homes / offices, good lighting and sound.
No chaos, no messy rooms.

Messaging
Always highlight USPs: start from €1, 600+ assets, 0 fees on deposits/withdrawals, 24/7, automated savings plans, widest selection in EU.

Tone of voice: Clear, approachable, trustworthy, relatable.
Avoid jargon and hype; focus on simplicity and reassurance.

Execution & Technicalities

Branding
Logo/app shown OR Bitpanda is mentioned by name within first 3 seconds.

Native to Platform
Content tailored for TikTok
(vertical, text overlays, native sounds, authentic tone).

Dynamic & Engaging
Quick cuts, but always clear - not chaotic.

Graphics & Editing
Keep visuals clean and simple - editing as a tool to build trust and transparency.

Use modern, bold typography and overlays to reinforce that Bitpanda is a modern, relevant, and updated product.

Visuals should feel premium, confident,
and consistent with Bitpanda's brand book.

Testing Disclaimer Approaches

Why test
Disclaimers are mandatory, but the way they are integrated can either build trust or create friction.
Some audiences may appreciate the transparency and feel reassured; others may find the heavy legal text distracting.

Approach
We recommend testing two variations per market to understand their impact on conversion and performance metrics (CTR, CVR, watch-through rates)

UK
Version A
Disclaimer runs across the whole video (as required).
Version B
Creator acknowledges it verbally in a natural way (e.g. “Of course, like all investments there’s risk - but here’s why I feel safe using Bitpanda”), while legal text still runs throughout for compliance.

Italy
Version A
Mandatory disclaimer text only (baseline).
Version B
Mandatory disclaimer text + creator mentioning it naturally to defuse concerns (e.g. “Yes, crypto has risks - that’s why I only invest what I can afford, and I trust Bitpanda.”).

France
Version A
Legal disclaimer in outro text only (baseline).
Version B
Legal outro text + creator acknowledgment, e.g.:
“Crypto can be volatile, but with Bitpanda it’s easier to understand and make educated decisions.”
